**Subject:** RE: Data request regarding customer class demand ratios  
**Attachments:** AB\_Wholesale Demands.xls

We only keep track of demands on a system wide basis, not by customer class.

We also do not any data (max hr or max day) since 2005 when that recording system was taken out of service. Starting in 2010, thru our new SCADA system, we will have information about our wholesale customer demands (per Jeff Novak). Note the attached file that I sent Vishwa for the last rate case (3720-WR-106).

Any further questions, let me know.

Tim,

Can you please provide maximum day and, if possible, maximum hour water sales for each of the wholesale communities? Additionally, can you provide maximum day and maximum hour water sales for each of the urban and suburban customer classes? That is, residential, commercial, industrial, and public authority for Milwaukee, West Milwaukee, and other suburban.

This is basically the same data Dave Prochaska has already requested and received. The difference is he looked at it on a system wide basis and I am looking at it broken down by customer class.

I expect you won't have max hour information for every customer class, but I appreciate whatever you can provide.

Thank you,

Andrew Behm
